By Tanja Bekhuis, PhD, TCB Research & Indexing LLC. TExtract® Pro v10 was used for semantic analysis and development.

This is a subject index for *The Children of the Poor* by Jacob A. Riis (1892), a classic book on child welfare. The pages correspond to a forthcoming special edition for scholars and serious readers.

Pages in **bold italics** indicate figures, mainly photographs by Riis.

Stories or anecdotes about children are indexed by name of child and again under 'stories of children.'
